P.O. Box 356 Duchesne, Utah 84021-0356
801-738-2468 Fax 738-5924 Ans. Mach. 738-2469

105.2 Surface Facilities Map My version of Exhibit E. All roads leading to borehole 4-6-7-8 are color coded yellow. If yours is not it is my mistake and should be.

105.3 Drawings or Cross sections That information is correct.

R647-4-109 Impact Assessment Approximately 50' vertical spacing between trenches.

R647-4-110.2 1st paragraph. This information is correct

2nd Paragraph. This information answered in R647-4-109

110.5 Revegetation Duchesne County agrees with the 10 ton per acre of manure in the crushing and mining area, but not the 5 ton manure per acre in the extension area. As for safety reasons, the roads accessing the extension area have been removed, thus no way to access the area except on foot.

111.12 Top Soil Redistribution Duchesne County agrees with this paragraph.

R 647-4-112 Variance Duchesne County agrees to the 5 guidelines as described in the top 80% of page 5.

R 647-4-113 Surety Duchesne County agrees with the \$89,800.00 reclamation bond.

1st paragraph page 6 Reclamation Summary. See comments on 110.5 Revegetation. Duchesne County can not put 5 ton per acre manure on the extension area due to lack of access. Duchesne County agrees with all other paragraphs in the reclamation summary described on page 6 and 7.
